TECHNICAL SKILLS

HTML5/CSS3/JavaScript/TS/ES6+

ReactJS/NextJS/VueJS/AngularJS

NodeJS/ExpressJS/NestJS APIs

Docker/AWS/SQL/NoSQL, CI/CD

Monday.com/Asana/JiraCloud

Bootstrap/MUI/Git/RESTful API's

C#/.Net/Azure-DevOp/GraphQL

SOFT SKILLS

- Time Management / Team work / Excellent communication skills
- Critical thinking & Problem Solving / Public speaking
- Adaptability / Self starting & Mentoring

PERSONAL PROFILE

I am a software developer professional focused on building scalable, production-ready web applications. I work across frontend development and backend integration, delivering clean, maintainable solutions that support product quality and business objectives.

EMPLOYMENT HISTORY

Independent Full-Stack Developer, KaizenFlow

FEB 2024 - PRESENT - REMOTE

- Build and maintain scalable full-stack web applications using TypeScript for a European-based startup.
- Develop backend services and RESTful APIs with NestJS, and build high-performance user interfaces with React and Next.js.
- Collaborate in Agile sprints with product and business stakeholders to deliver production-ready features with a focus on code quality.

Software Developer, Injozi

JAN 2023 - DEC 2023- REMOTE

- Translated 100+ wireframes and design concepts into production-ready interfaces, refining UI behavior and usability. Built scalable, reusable frontend components using modern web best practices.
- Collaborated with cross-functional teams and stakeholders to define requirements and design specifications. Improved application performance by 15% through debugging, optimization, and issue resolution.
- Implemented CI/CD pipelines, reducing deployment time by 30%.

Frontend Developer, Platform45

NOV 2021 - OCT 2022

- Engineered high-quality digital products for international and local clients, improving user satisfaction by 20%. Optimized UI/UX workflows to ensure accessibility and consistency across multiple platforms.
- Improved existing systems by identifying and implementing functional enhancements, increasing overall functionality by 25%.
- Collaborated with cross-functional teams to gather requirements and align solutions with client objectives.
- Mentored junior developers, contributing to improved code quality and team performance.

Software Developer, Fluenty

OCT 2019 - NOV 2021

- Developed modern applications with HTML5, CSS3, JavaScript, React.js, Vue.js, Redux.js, Bootstrap, Web-API, C#, .NET Core, and SQL Server. Analyzed user and business requirements, through to engaging in all phases of the software development life-cycle. Consulted and worked closely with other developers, UX designers, product managers, and systems analysts.

Software Developer Intern, Code Collective

OCT 2018 - OCT 2019

- Built small to medium-sized features within an agile team, working solo and pairing with other developers. I worked with a diverse tech stack, including Web APIs, C#.NET, and SQL Server. I spent my time problem-solving, bug fixing, generating, and evaluating realistic solutions that solved the real-world problems presented during our plan sessions.

EDUCATION HISTORY

- CS50 | Harvard University | May 2019
- CodeX - Software Engineering Studies | Feb 2017 - Jan 2018
- Together Technologies Bootcamp - Web Development | South Africa - 2016
- CPUT | Cape Town South Africa - Civil Engineering | 2014 - Dropout
